Spring Energy | Community in Motion | 2026

A Note to Our Neighbors

April has a way of keeping us on our toes out here. One day feels like spring, the next reminds us we're still very much in Colorado. The open space is starting to shift, the light is lingering a little longer, and there's a quiet sense that everything is waking back up—even if the weather hasn't quite made up its mind yet.

This time of year always feels like a reset. Not rushed, not overly polished—just a gradual return to being outside, reconnecting, and settling back into the rhythm of the community.

As we head into a busier season, you'll start to see more opportunities to gather, meet neighbors, and spend time together again. Whether you've been here for years or just recently moved in, this is one of the best times to lean in a little and get connected!

Access Card Reminder

Independence has transitioned to a new access system for the gym, pool, and Community Center. Keypad PINs are no longer active—entry now requires a District-issued access card.

Residents can pick up their card at the Community Center during staffed hours. Each household will receive one card initially, with the option for a second.

For full details, pickup requirements, and policies, please [click here](#) to visit the Recreation page on the Independence Overlay Metropolitan District website.

Independence Community Clubhouse Staffed Hours:

Mondays & Wednesdays: 4 – 7 p.m.

Tuesdays & Thursdays: 10 a.m. – 2 p.m.

Saturdays: 12 – 6 p.m.

The gym remains accessible to residents with key fob access outside staffed hours. Stop by during staffed times for reservations, access setup, or general assistance.

Safety Reminder: Ponds & Open Space

All ponds are restricted District property and are used for irrigation, retention, and detention—not recreation. Motorized vehicles are never allowed in open space areas.

Fire – 303-646-3800

COMMUNITY REMINDERS

An April Message from the Metro District

RESIDENTIAL WATER & NON-POTABLE WATER UPDATE AND LANDSCAPING

It is officially springtime, landscape maintenance matters. Please take a moment to check for lingering weeds or trees that may not have survived the winter. Keeping yards neat supports the welcoming character of Independence.

Section 8.1.1 Sightly Conditions: Each Unit shall at all times be kept, maintained, repaired and replaced in a good, clean and sightly condition by the Owner thereof.

2026 Irrigation Season Begins

- Irrigation service is scheduled to be activated around April 15, 2026.
- Please ensure your personal irrigation valves are turned OFF (closed) prior to activation to prevent potential damage or leaks within your system.
- Semocor, the Independence Water and Sanitation District's system operator, will be inspecting the system and addressing any District-related issues during startup.
- Residents are encouraged to begin activating their personal irrigation systems on or after April 19, 2026, allowing time for any necessary system-wide maintenance or repairs.
- Please note that individual home irrigation systems are the responsibility of the homeowner, including turning the valve on and off, maintenance, and repairs.

For 2026 the District has implemented the following irrigation restrictions: Click [HERE](#) to learn more

- Irrigation of landscaped areas shall be limited to no more than three (3) days per week.
- Homes with addresses ending in an odd number shall only irrigate on Monday, Wednesday, and Saturday.
- Homes with addresses ending in an even number shall only irrigate on Tuesday, Thursday, and Sunday.
- Residential irrigating is not permitted on Friday.
- Irrigation shall not take place between the hours of 8:00 a.m. and 8:00 p.m.
- Irrigation zones should be set to water 10-15 minutes per zone.
- Runoff of irrigation water is not permitted. Please ensure that your irrigation system timers are adjusted – set to only irrigate on the correct days of the week and that individual zones are timed to prevent overwatering and runoff of irrigation water.

The District encourages users to irrigate responsibly. The current Rate & Fee Resolution can be found on the District's website at: [Rates - Independence Water and Sanitation District](#)

Required Non-Potable Irrigation Water Signs: (See Photo)

Semocore, the District's water operator, has been installing required non-potable irrigation water signage at homes throughout the community and will continue over the next several weeks. The signs will be placed near each residence's front stairs.

The District's irrigation system uses non-potable water, which is safe for landscape irrigation but not safe for drinking or human consumption.

The Colorado Department of Public Health and Environment (CDPHE) requires visible signage identifying non-potable water systems as part of statewide public health and water system identification requirements. Please **do not remove or tamper** with these signs once installed.

The District will be considering fines for Signs that have been installed and then removed by the homeowner.

We love seeing Independence shine through every season, and as we move into the spring growing season, here are a few timely reminders to help keep our community safe, welcoming, and looking its very best.

Notes from the ELCI Landscaping Team:

Our landscaping team continues working behind the scenes each month and into spring.

- Ongoing upkeep and maintenance:
- Weekly trash patrol
- Dog stations regularly serviced
- Continued winter watering as weather and water restrictions allow
- Meeting with a herbicide specialist to develop a long-term strategy for managing weeds in rock areas
- Planning for Spring Clean-up and other maintenance and area refresh projects

Looking ahead, we're planning a spring meet-and-greet with our new landscape partner, Environmental Landworks (ELCI), so residents can meet the team, including an opportunity for residents to see equipment up close and learn more about how the team cares for our community.

WINTER WEATHER & PARKING REMINDERS

The snow season is coming to a close! This is Colorado after all and this means there is still a chance for some winter weather usually until mid-May. To ensure plows can safely and efficiently clear our streets, please remember to keep all vehicles parked in driveways or garages whenever snow is in the forecast. Vehicles left on the street limit maneuvering space and may prevent Elbert County and our contractors from plowing.

SEASONAL DECORATIONS

As a reminder, seasonal decorations should be removed within 15 days after holidays.

TRASH CONTAINERS

For all completed homes with a certificate of occupancy:

- Trash containers may be placed curbside after 6 a.m. on pickup day.
- They must be returned to proper storage by 9 p.m. the same day.
Containers should be stored out of sight between pickups.
- These small steps keep our neighborhood clean and looking beautiful!

RECREATIONAL VEHICLES

A friendly reminder that recreational vehicles, campers, and trailers may not be parked in driveways or on the street for longer than 72 hours (Article 21 in the District's covenants). This guideline helps keep streets clear, improves visibility, and maintains the overall appearance of our community.

DESIGN REVIEW

Thinking about a winter project or planning ahead for spring? Any exterior changes — landscaping, patios, architectural modifications — must be submitted for design review before work begins. You can find covenants and design guidelines on the Overlay Districts page. [Click here](#) for more information.

For New Homeowners, what is a Special District?

Special districts are created to fill service gaps in county services. In Colorado, these districts function as local governments or political subdivisions of the state, adding a third level of government in the United States. This level includes counties, municipalities (cities and towns), school districts, and other entities such as authorities and special districts. For the Independence community, several Metropolitan Districts are in place:

- [Independence Overlay Metropolitan District](#): Oversees public amenities, enforces Covenants, and acts in lieu of an HOA.
- [Independence Metropolitan Districts 1, 2, 3, 4, 5, and 6](#): Metropolitan Districts dedicated to residential development.
- [Independence Water & Sanitation District](#): Provides water and sanitary sewer facilities and services to the entire community.
- [Independence Commercial District](#): Will oversee future commercial operations.

If you have any questions about our community's districts, architectural review tips, design guidelines, or resident responsibilities related to home ownership in the Independence Community, as well as inquiries about water, landscaping, trash, etc., please contact Public Alliance, LLC at 720-213-6621 or Contact@PublicAllianceLLC.com.
